2010
X
II division

SKILLS

- Html, css, JavaScript, Reactjs, corejava, react native, typescript

PROJECTS

- **Profile**
<https://github.com/ChingKhuman>
- **Ningthi**
Ningthi project is the delivery service project, I had work with admin handling first then Delivery app also. That was a huge project and that was team work. Admin panel can handle both of the seller panel as well as de app. Can track DE agent whatever he go for staus. DE app UI was providing otp service which is updating status after confirm and most importantly his/her earning screen etc so on

- **Bliss cake**

Bliss cake is like Ecommerce, Customer can order the cake from the online and their payment etc.

- **Website server**

This project purpose is to find out whether the website is down or up in every 1 or 10 min whatever and store their data in the database.
